Tuesday, 26 July 2011 00:00 - Last Updated Thursday, 15 September 2011 09:29

Latest PHR Software Revision Released

This is a **FREE** update for all registered users.

The update is straight forward using a simple to follow update program (no messy files to unzip and copy and then find you have copied them to the wrong place).

Version 1.2 contains

- Addition of a full free text more information option. This is useful for adding even more information like, full medical history, vaccinations and dates, plus any other general emergency information.
- Ability to print the more information
- Plus some other minor updates

Note:

No personal data that is on your MEkey will be lost during the update, so you dont have to start entering all your data again.
